Oct. 2, 1924.

Mrs. Mary Greene Wilson,
Douglasville, Texas.

Dear Cousin Mary;

I have your two letters, one dated Sept. 24th. and I am certainly glad to hear from you. I was confined to the house for ten or twelve days with Flu but am out again today.

I saw Ora Gregory and Cousin Jennie the last time I was in New York but haven't been up in several months. Durward was up about three months ago and went in to see them, he goes to New York quite often now every two or three months. We were interested with Floyd in an Alcohol Distillery Plant on Staten Island at the time he died the plant hadn't been completed but had to close the work down on account of his death, in other words cut out the building operations. Floyd's widow is still in New York residing at Bretton Hall.

I am coming to see you some time when you are not expecting me, I did expect to go this past summer but could not get away. My daughter, lisslt Jessie's address is 1100 N. Dearborn St. Chicago c/o Lyceum Arts Conservatory. Jessie will be there until about the first of December, she will then come home during the winter but will go back again next spring for final completion. She doesn't have time to write much as she is working very hard but if you have any friends living in Chicago would appreciate it if you would write them to call on Jessie but in the meantime let Jessie know you have written them to call on her otherwise she would hesitate to know much about strangers unless she knew who they were as Chicago is certainly a Cosmopolitan town, a general mixture of all the races on earth.

I note the clipping regarding Mrs. Ferguson, have kept up with this all along. I know nothing about Ferguson except that he was impeached, remember that quite well but at the same time I don't see how a Democrat can support a Republic ticket as the Republic views on the tariff does not fit or coincide with the necessities of the people of the Agricultural South.

With sincere regards from all of us, I remain

Sincerely,

JCC:C
